Subject: Material for Scientific Integrity Panel Call
Attachments: Results Table for Panel.xlsx

Panel Members,

Thank you for evaluating the applicants. Attached is the results table for your consideration and discussion. There is general agreement around the two candidates shown at the top of the results table. I have highlighted the next three candidates (based on overall points). If we could focus our discussions on these five candidates and settle on who the panel feels should be interviewed, that would probably be the best use of our time. Several of the panel members may want to talk about their rankings. I will also be able to provide some additional information on candidate 3, as she interviewed for another position in OSA today.

You can join the discussion in person or via phone (see the meeting invite). Two panel members have indicated that they will be time constrained, so I will try to keep the discussion focused.
